RE: Chaseburg Rod and Gun Club

To Whom It May Concern,

The Town of Shelby Police Department uses the Chaseburg Rod and Gun Club for its firearms training and practice. The Chaseburg Club is close to Shelby and it is very convenient. Due to the police officer's unusual schedule, Officers can usually get in and use the facilities. The Shelby Police Department trains with handguns, rifles and shotguns on their pistol, rifle and trap range.

Enhanced fire lanes, blockades and other improvements for the pistol and trap range would be better training for the Officers. Currently the Officers make their own training accessories and shooting routines. Moving, knock down targets and a shooting house would be ideal for Police Officer training, but are very expensive and the Police Department cannot afford them by itself. Having access to a facility such as the Chaseburg Rod and Gun Club is very beneficial for our department.

Officer Sharon Neitzke
